Dear Sirs,

Subject: Prefabrication and Site Assistance for PX Tie-in

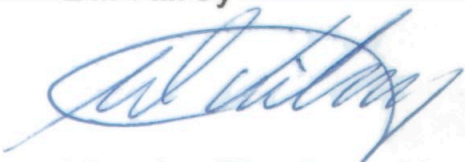

As you are well aware the Tie-in, at the PX facility, Teesside, was a total success and as a company Murphy's have received congratulatory notices from the end user.

I would like, on behalf of the project, to extend our appreciation for the hard work and endeavour your company has contributed to the final outcome, despite considerable disruptions in the supply of free-issue materials.

It is also noted that your personnel always maintained an upbeat attitude and proved to be totally flexible and professional in their approach, in assuring the deadlines were met.

In conclusion, I would have no hesitation in commending Haigh Pettican Limited for future work on the project and recommend your company to others who may enquire.

Yours Faithfully
Bill Kilroy
